

COGCC Training Seminar Schedule

The Colorado Oil and Gas Conservation Commission will conduct a series of training seminars to acquaint operators, as well as members of the public, with the state's updated oil and gas rules during the month of March.

All venues have limited seating which will be on a first-come, first-serve basis. Additional training seminars may be scheduled later if needed.

Please bring a copy of the new rules with you. They can be downloaded from our homepage (www.colorado.gov/cogcc), under "Final Amended Rules."

The sessions are expected to begin at 9:00am and to last approximately all day. We will soon post an agenda for the sessions.
