

Staff Report

for April 30, 2018

Top Stories

◆ Environmental Database Update

The COGCC in conjunction with the Ground Water Protection Council (GWPC) has developed a publicly available, searchable database of groundwater, surface water, and soil sample analytical results from throughout the state. This database is referred to as the COENV database. The COENV database has been active since September 2012. The database has sampling data dating back as far as 1941. The environmental database currently contains over 16,144 sample locations and 45,286 individual samples.

To date in Fiscal Year 2017-18, 1,315 water samples from 509 separate locations have been added to the database. Since the statewide rules for groundwater sampling went into effect (May 1, 2013), the COGCC has received a total of 10,106 samples from 3,069 separate locations.

The data can be accessed through the GIS Online map. Sample locations with available water and natural gas data appear as green triangles when the "Sample Sites" layer is turned on. The user can double click on a sample site and gain access to the analytical data for that site.

The database allows for electronic data deliverables to be used for input. New samples from COGCC staff sampling efforts, current COGCC baseline sampling rules (Rules 317B, 318AE4, 608, and 609), and operator driven voluntary baseline sampling programs are available.

In April 2014, water sample data in the COENV database was made available for download in an Access database format for those who wish to query large datasets. Access to the download is under the HELP section of the COGCC webpage under DOWNLOADS. The database download has

been used by a number of entities such as scientific organizations, local governments, and others to better understand background water quality in their area of interest.

In addition to water samples, natural gas and produced liquid sample data collected from oil and gas wells by operators or COGCC Staff are stored in the COENV database. The data is collected as part of Bradenhead testing, before plugging and abandoning wells, as part of complaint investigations, and as part of requests to vent or flare. Currently, this data is only available through the GIS online maps.

◆ Form 44 Training Webcast Online This Month

On April 17, COGCC Staff offered operators across Colorado initial training on using the new Flowline Report (eForm 44). The agency webcast the training presentation from the COGCC hearing room to an online audience. Many others attended in person.

Operators received instructions for submitting reports for:

- Registration
- As Built Specifications
- Realignment
- Removal from Service
- Abandonment of Off Location Flowlines
- Domestic Taps
- Crude Oil Transfer Lines
- Produced Water Transfer Systems
- Reporting Grade 1 Gas Leaks.

◆ Community Relations Unit and Local Government Liaison (LGL) Program Update

Mike Leonard was recently promoted to manage the newly formed Community Relations Unit (CRU) at the COGCC, which includes Local

Government Liaison (LGL) Marc Morton and Complaint Intake Specialist Megan Adamczyk. Under consideration since 2016, the CRU was finalized in March 2018.

In keeping with the COGCC Mission Statement, the CRU allows the agency to expand its interaction and communication amongst local, state and federal government agencies, the general public, the oil and gas industry, and other stakeholders.

In leading the CRU, Mike Leonard has the following duties:

- Assist in responding to inquiries and information requests from local government staff, the public, operators, and other stakeholders;
- Lead the agency in responding to emergency situations and working with emergency response personnel;
- Support the agency's complaint intake and resolution process;

- Strengthen the LGD Program by seeking opportunities for outreach to local government officials and their constituents about the state's regulatory process and what to expect when oil and gas activity is planned or occurs in the area; and
- Support LGL staff efforts in managing the Local Governmental Designee (LGD) program, which includes offering ongoing training opportunities to LGDs and local government staff, which between 2013 and present has had over 480 participants. COGCC training opportunities are detailed on the COGCC website under the Government page by selecting 2018 LGD Training Information.

A list of CRU Unit Staff outreach and public involvement activities conducted since the last Staff Report is included in the Public Outreach section of the Staff Report (below).

Public Outreach

➤ Outreach by the Director and Other Staff

- On April 9, Integrity Engineer Ellice Whittington attended a Coordinated Response Exercise (CoRE) in Aurora, where she interacted with One Call representatives, first responders, pipeline operators, and others to discuss response plans for pipeline emergencies.

Overview", and she and Susan fielded questions about field inspection methodology, outcomes, and prioritization.

- On March 28, Marc travelled to Keenesburg and provided a half day LGD orientation training to recently installed Town of Keenesburg LGD Marc Johns.

- On April 11, Marc provided a full day LGD training to staff members from the City and County of Broomfield, the City of Longmont, the Town of Frederick, and Town of Keenesburg. CRU Manager Leonard took part in the training, and Kent Kuster, Sean Hackett, and Tami McMullin of CDPHE also participated.

- On April 18 and 19, Orphan Wells Program Manager David Andrews, Field Inspection Unit Manager Ash, Supervising Field Inspector Shaun Kellerby, Field Inspector Kyle Granahan, and Marc travelled to Rifle and attended the annual Energy and Environment Symposium presented by Garfield County and the Colorado Mesa University Unconventional Energy Center. Marc provided a presentation titled "Overview of the COGCC Local Governmental Designee Program." The three Field Inspection Staff presented a tour

➤ Outreach by the Community Relations Unit

- On March 11 at COGCC offices in Denver, Marc Morton provided a full day LGD training to staff members from the City of Boulder and City of Commerce City. Training was attended by Mike Leonard, recently named as Manager of the newly created Community Relations Unit at COGCC, and Oil and Gas Liaison Kent Kuster of the Colorado Department of Public Health and the Environmental (CDPHE).
- On March 21 in Aurora, Field Inspection Unit Manager Margaret Ash, Eastern Area Field Inspector Susan Sherman, and Marc attended the bimonthly public meeting of the Aurora Oil and Gas Advisory Committee at the City of Aurora Municipal Center. Margaret provided a presentation titled "Field Inspection Unit

for attendees entitled "The COGCC's Field Inspection Process: Who We Are, What We Do, and How We Do It." Orphan Wells Program

Manager Andrews presented "Plugged and Abandoned Well Information for Local Planners."

Regional Activities

➤ Northwest Colorado

◆ Northwest Colorado Oil and Gas Forum

Remaining Northwest Colorado Oil and Gas Forum (NWF) meetings for 2018 have been scheduled for August 2 and December 8. All meetings will be held in Rifle at the Colorado Mountain College - Rifle Campus / Clough Auditorium at 3595 Airport Road beginning at 9:00 a.m. and concluding by 12:00 p.m.

Meeting agendas will be posted to the COGCC website approximately one to two weeks prior to each meeting. The COGCC welcomes suggestions for speakers and topics. Meeting information is also emailed to those on the email distribution list.

All parties wishing to be placed on the meeting agenda or added to the email distribution list for announcements should contact Marc Morton at (303) 894-2100, ext. 5132 (direct), (720) 415-4959 (mobile), or by email:

marc.morton@state.co.us

As a reminder, NWF meetings are open to the public, and a public comment period is held as part of each meeting. Past NWF presentations (dating back to 2006) are available on the COGCC website at:

<http://cogcc.state.co.us/library.html#/forums>

◆ Project Rulison

The five year revision of the Project Rulison Sampling and Analysis Plan (RSAP) has been completed. Major revisions to the plan included re-defining the exterior buffer zones to align with hydrogeologic flow patterns instead of more arbitrary circular rings in the original plan.

This document is in the COGCC's Area Reports Library and can be found at the following link:

<http://cogcc.state.co.us/documents/library/AreaReports/PiceanceBasin/Rulison/Rulison%20Sampling%20and%20Analysis%20Plan%20Revision%204%20062217.pdf>

The email for Project Rulison submittals is

DNR_rulison.submittal@state.co.us

◆ Project Rio Blanco

The email for Project Rio Blanco submittals is

DNR_rioblanco.submittal@state.co.us

➤ Southwest Colorado

◆ Gas and Oil Regulatory Team (GORT) Meeting

The Southwest Colorado Gas and Oil Regulatory Team (GORT) meeting schedule for 2018 has been set. Remaining GORT meetings in 2018 will take place June 21 and October 18. The June 21 and October 18 GORT meetings will be held at the Durango Public Library at 1900 E. 3rd Avenue, Durango, between 9:00 a.m. and 12:00 p.m.

GORT meeting agendas will be posted to the COGCC website approximately one to two weeks prior to each meeting, and emailed to those on the email distribution list. The COGCC welcomes suggestions and input for speakers, topics, as well as meeting format and venue.

All parties wishing to be placed on the next meeting agenda or added to the distribution list for announcements should contact Marc Morton at (303) 894-2100, ext. 5132 (direct), (720) 415-4959 (mobile), or by email:

marc.morton@state.co.us

As a reminder, GORT meetings are open to the public, and a public comment period is held as part of each meeting.

◆ **Fruitland Formation Outcrop Mitigation and Monitoring Projects**

South Fork Texas Creek Mitigation Site - La Plata County. Regularly scheduled operations and maintenance are being performed at the South Fork Texas Creek (SFTC) site by LTE, the COGCC's contractor. Since May 2009, the system has collected 22,933 Mcf of methane and generated 264,128 kWh of surplus electricity.

The 4M Mitigation Operations and Maintenance Report for August 2016 through December 2017 has been posted on the COGCC website in the library under San Juan Basin 4M Project.

The 2017 Fruitland Outcrop Monitoring Report for La Plata County and the 2017 Outcrop Zone Report for Archuleta County are also now available on the library under San Juan Basin La Plata County, and Archuleta County, respectively.

Admin / Organization / Other

◆ **New Western Region Engineering Supervisor**

Craig Burger accepted the position of Western Region Engineering Supervisor this month after working in the COGCC's Engineering unit as an area engineer since 2014 and, before that, as a field inspector since 2013.

Before coming to the COGCC, Craig's experience included 15 years in consulting engineering. Craig holds a bachelor's degree in Civil Engineering from Washington State University and a master's degree in geotechnical engineering from Colorado State University.

◆ **New Area Engineer**

Eric Jacobson accepted the position of an Area Engineer this month after serving the COGCC's Engineering Integrity work unit as a temporary engineer. Before coming to the COGCC, Eric's experience included 11 years with large and small operators in Denver as a drilling and completions engineer, and 17 years in the oilfield service industry. Eric holds a bachelor's degree in Petroleum Engineering from New Mexico Tech.

◆ **Plugging and Reclaiming Orphaned Wells (PROW) Project Updates**

The COGCC performed field work for the Orphan and Distressed Operator (ODO) Program projects described below since January 29. These projects relate either to "Orphan" locations or wells for which there is no known responsible party, or they relate to "Distressed Operator" projects in which surety claim funds are available.

The ODO project summary tables for Fiscal Year 2017-18 (FY18) are found on pages 11-15. The projects are sorted first by county and then by the project name. The field work described below pertains to ongoing projects or to recently completed projects. The agency has prioritized the ODO work planned for FY18, although each project is subject to change as new conditions arise during the year.

The Atom Petroleum Project began with Commission Order 1V-586. The project involves three single well locations in La Plata and Montezuma Counties. Recent FY18 work included well plugging and flowline abandonment at the Montezuma County wells.

The Energy Search Project began with Commission Order 1V-636. The project involves 15 locations in Adams and Washington Counties. A total of 12 wells remain on these locations. Recent FY18 work included fence repair at three locations in grazing pastures in Washington County.

The Texas Tea Project began with Commission Order 1V-573. The project involves eight single well locations in Adams and Weld Counties. Recent FY18 work included flowline abandonment at two locations in Adams and Weld Counties.

COGCC Staff also installed lock out and tag out devices on wells, production equipment, and fences at various locations for multiple Front Range locations in Adams and Weld Counties.

◆ Colorado Oil and Gas Information System (COGIS) Projects, Updates and Changes

Update on New Flowline Form

The New Flowline Report (Form 44) will allow operators to register, report realignment, report removal from service, or report abandonment of Off Location Flowlines, Domestic Taps, Crude Oil Transfer Systems, and Produced Water Transfer Systems.

The form will also allow operators to report Grade 1 Gas Leaks, which are leaks that represent an existing or probable hazard to people or property and require immediate repair or continuous action until the conditions are no longer hazardous. The Form 44 will be released in eForms by May 1 to register new flowline construction.

Form 12 Release in eForms

The Gas Facility Registration/Change of Operator, Form 12 has been released in eForms. The Form 12 includes revisions for the registration and reporting requirements of new Rule 313B, effective May 1, 2018.

Form Revisions for New Rules

Several forms have been revised to accommodate the new flowline rules and associated rule revisions effective May 1, 2018. The One Call - UNCC Member Code has been added to the Operator Registration, Form 1 and the Change of Operator, Form 10.

The new pipeline facility types have been added to the Change of Operator, Form 10 and the Spill/Release Report, Form 19. The Produced Water Transfer System has been added to the Performance Bond, Form 3 as a bond type.

Electronic Form (eForm) Submissions

The COGCC uses 41 types of forms to authorize oil and gas operations, inspect and monitor ongoing operations, and receive reports of operations. Of those 41 forms, 21 are currently available for electronic submittal through the eForms system.

The development team continues to work on the eForm conversion of existing forms. Currently, four forms are in various stages of development: Forms 8, 11, 12, 14, 14A, 43, and 44. In preparation for the May 1, 2018 effective date of the new flowline rules, the development team is creating the new Form 44 and making required revisions to several other forms.

As of March 1, industry electronically submitted 97 percent of the forms available in eForms in 2018. There are 900 operator users of eForms and 3,643 individual users. For any operator not currently enrolled in eForms, instructions for starting the process can be found on the COGCC website at:

<http://cogcc.state.co.us/Announcements/COUInformation.pdf>

Applications and Location Assessments

The public can make comments on all submitted Drilling Permit Applications (Form 2s) and Location Assessments (Form 2As) through the eForm system. Simply go to the COGCC website and click on the menu option “Permits” or

<http://cogcc.state.co.us/permits.html#/permits>

On the “Permits Search” page, three search options are available. The first option, “All Pending Permit Applications,” is used for public comments. When the results are displayed for “Pending Applications,” a user can click on the document number hyperlink in the “Status” column, which logs him or her to the eForms application.

Once the page is displayed with the selected document, the user can select the “Comment” button to make a comment on that particular form.

Data Access

The COGCC’s database is a comprehensive repository of Colorado’s oil and gas data. The information in the database is available to the public through interactive search tools and a variety of file downloads on the website.

Users of bulk data come from many different sectors of the community, including academia,

oil and gas operators, environmental groups, government agencies, and the media.

All the data file downloads are available at:

<http://cogcc.state.co.us/data2.html#/downloads>

Current Data File Downloads

Complaints
Field Operations
Flowline NTO Imported Data
GIS Shapefiles (12 files)
Mechanical Integrity Tests
Notices of Alleged Violation
Production Data (1999 - present)
Spacing Orders
Spills and Releases
Analytical Sample Data

Future Data File Downloads

Enforcement Orders (OFVs and AOCs)
Underground Injection Control (UIC) Data

◆ June 2018 Hearing Docket

The docket for the June 2018 hearing will be available shortly after the April hearing. Hearing dockets are available on our website by clicking on “Regulation” in the menu and then “Hearings”:

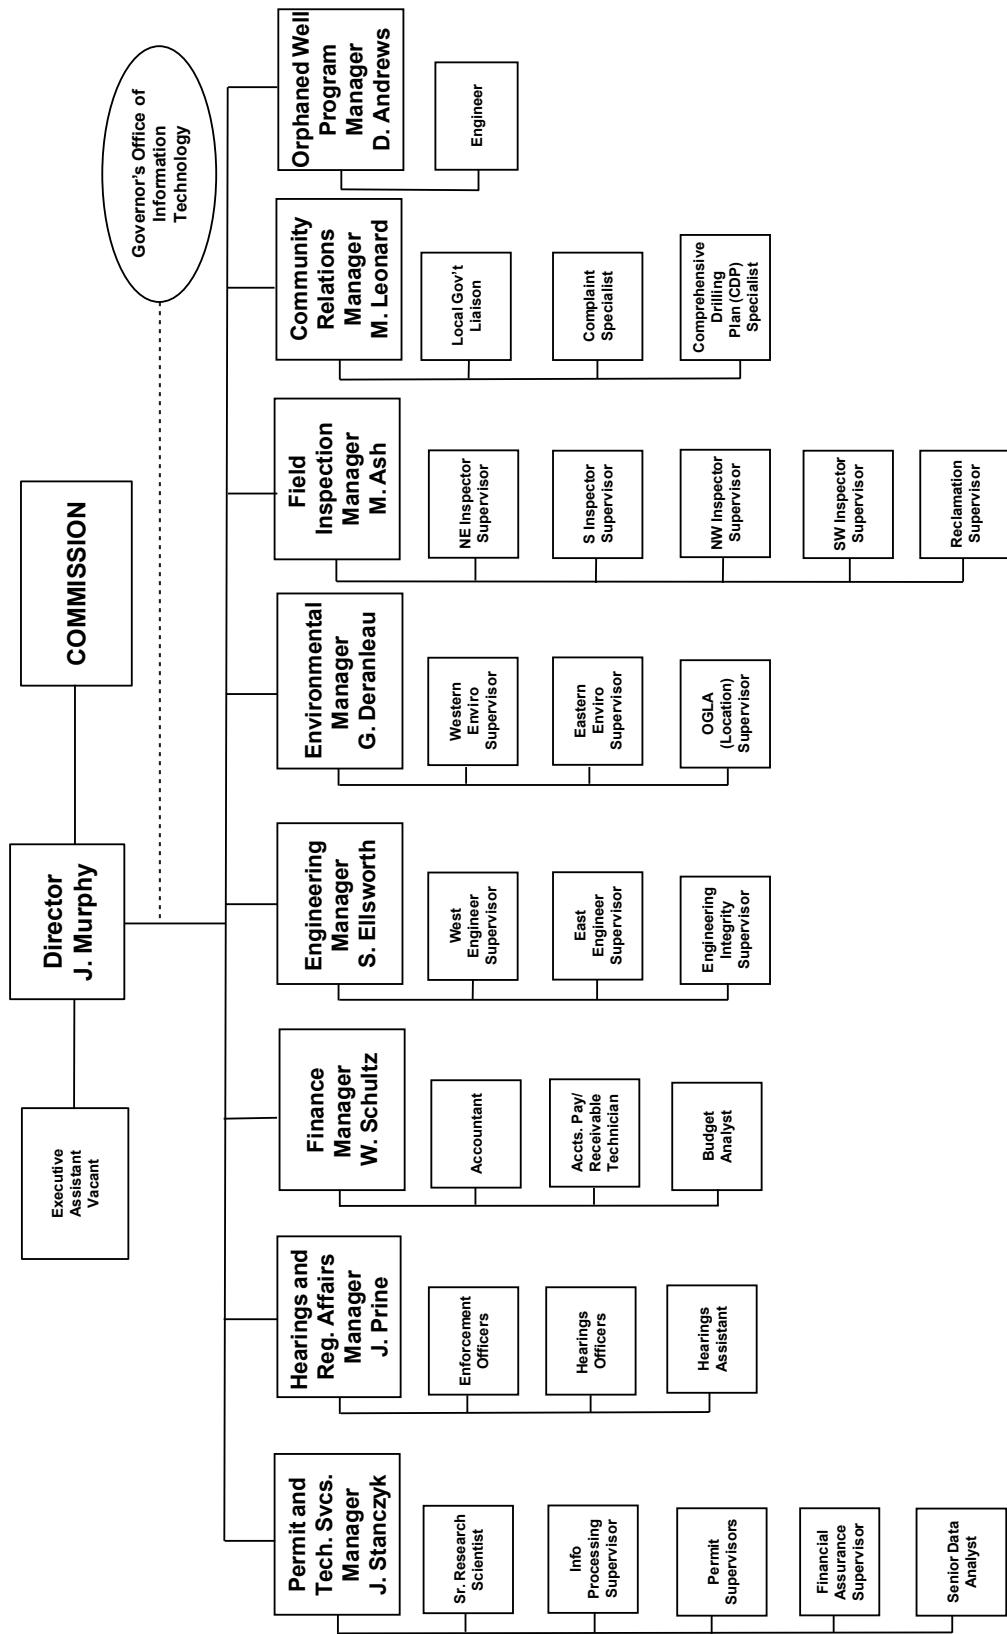

<http://cogcc.state.co.us/reg.html#/hearings>

Links to the notices and hearing applications are available from the Docket Number and Applicant, respectively, by clicking the June Gen_Docket link. To sign up for email notification of hearing notices and applications, please see the announcement and instructions on the homepage of the COGCC website.

Engineering	Boulder	Juhl #1: Task 1 - Plug and Abandon, Flowline Abandonment - 379627, 013-05018	Completed	Fluid disposal
Environmental	Jackson	CM Production Bond Claim: Task 1.14 - Sampling and Analysis, Spill or Remediation - 324630,	Completed	Soil sampling and analysis
Environmental	Jackson	CM Production Bond Claim: Task 1.15 - Sampling and Analysis, Spill or Remediation - 324599,	Completed	Soil sampling and analysis
Environmental	Jackson	CM Production Bond Claim: Task 1.7, 1.10 - Equipment Intervention - 324634,	Completed	Remove liquids from tanks
Engineering	Jackson	CM Production Bond Claim: Task 3.1, 3.2 - MIT or Other Well Work, Plug and Abandon - 324599, 057-06011	Completed	FY2017-18 Work: Set downhole plug to TA well and MIT (complete).
Engineering	Jackson	CM Production Bond Claim: Task 3.1, 3.2 - MIT or Other Well Work, Plug and Abandon - 324640, 057-06127	Completed	FY2017-18 Work: Wellhead repair (complete). Timing for final plugging

COMPLETED TASK LIST - FY2017-18, cont.		Project and Task		Task Status	Planning Comments
Work Unit	County				
Engineering	Jackson	CM Production Bond Claim: Task 3.1.3.2 - MIT or Other Well Work, Plug and Abandon - 324626, 057-06069		Completed	FY2017-18 Work: Set downhole plug to TA well and MIT (complete).
Field Operations	La Plata	Atom Petroleum Bond Claim: Task 1.2 - Equipment Intervention - 325653,		Completed	Remove liquids from tank
Engineering	La Plata	Atom Petroleum Bond Claim: Task 2.5 - MIT or Other Well Work - 325653, 067-06777		Completed	FY2017-18 Work: Removed liquid from cellar, no wellhead leak
Environmental	La Plata	McCullough #4: Task 2 - Sampling and Analysis - 325208,		Completed	Collect wellhead gas samples
Engineering	La Plata	Red Mesa Holdings Bond Claim: Task 2 - MIT or Other Well Work, Complaint response, Bradhead test - 325858, 067-		Completed	Set downhole plugs to TA well, perform MIT, abandon flowline, and
Engineering	La Plata	Red Mesa Holdings Bond Claim: Task 2 - MIT or Other Well Work, Plug and Abandon, Flowline Abandonment - 325267,		Completed	Plug well and abandon flowlines, remove pump jack, and install
Environmental	La Plata	Red Mesa Holdings Bond Claim: Task 3 - Sampling and Analysis, Spill or Remediation - 325267,		Completed	FY2017-18 Work: Remove hydrocarbon-impacted soil (includes
Field Operations	La Plata	Red Mesa Holdings Bond Claim: Task 6 - Equipment Intervention, Remove crude oil - 325297,		Completed	Remove liquids from tank
Reclamation	La Plata	Red Mesa Holdings Bond Claim: Task 7 - Stormwater BMPs (maintenance) - Red Mesa Field,		Completed	Install and maintain stormwater BMPs
Engineering	La Plata	Reynolds* Noel Bond Claim: Task 2.1 - MIT or Other Well Work, Install pressure gauge - 385368, 067-05448		Completed	Wellhead work to prepare for future re-entry to plug and abandon,
Reclamation	Larimer	Ranchers Bond Claim: Task 2 - Engineering Design - 419639,		Completed	Soil sampling and analysis
Field Operations	Logan	CM Production Bond Claim: Task 1.5 - Equipment Intervention - Cliff and Mount Hope Fields,		Completed	
Environmental	Logan	Red Mountain Bond Claim: Task 13 - Sampling and Analysis, Spill or Remediation - 312261,		Completed	Collected samples for analysis at produced water pit and around other
Engineering	Logan	Red Mountain Bond Claim: Task 8 - Plug and Abandon, Flowline Abandonment - 312261, 075-08293		Completed	Plug well and abandon flowline
Engineering	Mesa	DB Orphan #8: Task 1 - Plug and Abandon - 450650, 077-10381		Completed	Set surface plug, cut off casing, and weld plate
Environmental	Mesa	DB Orphan #8: Task 2 - Sampling and Analysis, Soil Vapor Monitoring - 450650,		Completed	Soil gas monitoring
Environmental	Mesa	DB Orphan #8: Task 3 - Soil Vapor Extraction System - 450650,		Completed	FY2017-18 Work: Wind turbine ventilator installed. SVE blower shut
Engineering	Mesa	Lloyd and Lowell #1: Task 2 - Plug and Abandon - 428669, 077-40017		Completed	Plug well
Reclamation	Moffat	Tatanka Bond Claim: Task 10 - Weed Control (maintenance), Stormwater BMP maintenance - 313340,		Completed	Stormwater permit
Engineering	Moffat	Vitruvian Exploration Bond Claim: Task 1 - Flowline Abandonment - 392479,		Completed	Abandon flowlines
Engineering	Montezuma	Atom Petroleum Bond Claim: Task 1.1 - Plug and Abandon, Flowline Abandonment - 33483, 083-06263		Completed	Abandon flowlines
Engineering	Montezuma	Atom Petroleum Bond Claim: Task 1.1 - Plug and Abandon, Flowline Abandonment - 313628, 083-06653		Completed	Plug well and abandon flowlines
Environmental	Montezuma	Pitcher #1: Task 1 - Sampling and Analysis - 393155,		Completed	Collect samples at former tank battery location and develop
Reclamation	Montezuma	Wolcott #: Task 2 - Reclamation (initial work) - 313501,		Completed	Reclaim location
Reclamation	Montezuma	Woosley Oil - State #1-36: Task 4 - Reclamation (initial work) - 313502,		Completed	Reclaim location
