

OGDP Review Notes

*COGCC Operator Meeting
August 17, 2021*

Greg Deranleau

COLORADO
Oil & Gas Conservation
Commission

Department of Natural Resources

OGDP Review

- **Communication:**
 - Please contact the Lead OGLA with questions about the completeness review notes.
 - The Lead OGLA is the person assigned as “Reviewer” from eForms or WebForms dashboard
 - You may copy SMEs for a topic if you know who they are, but we want the Lead OGLA to be a clearinghouse for each OGDP

	Doc ID	Num	Status	S	Date(S)	Opr Num	Company Name	County	Sec
<input checked="" type="checkbox"/>	402618084	02A	UPLOADED		08/04/2021	10763	BNL (ENTERPRISE) INC	LAS ANIMAS	16

Task	S	Due Date	Assigned To	Reviewer	Status	Status Date
Completeness	1	09/03/2021	NOTO, JOHN	Schwarz, Stephen	Active	08/04/2021

OGDP Review

- **Process Notes:**
 - There are 2 phases of staff review:
 - ◆ Completeness (UPLOAD)
 - ◆ Technical Review (IN PROCESS)
 - Just because something passes completeness, does not mean you will not be asked to clarify, modify, or supplement the information during technical review
 - Be prepared to address requests for additional information from the Commission during the hearing, including information for which the Director granted a waiver during completeness review

OGDP Review

- **Error Alert!**
 - Staff continues to see errors and discrepancies between technical forms and the hearing application
 - These errors cause delays!
 - Suggestions:
 - ◆ Keep Hearing Applications simple
 - ◆ Base Hearing Applications off the technical data
 - ◆ QA/QC to ensure consistency BEFORE submitting
 - ◆ Keep internal parties apprised of changes during application development

OGDP Review

- **Public Comments:**
 - Staff will continue to review and address public comments made on the Form 2A and in the hearing application during the public comment period.
 - Additional comments may be submitted to the hearing application right up to the hearing date
 - ◆ Operator should review and be prepared to address those for the Commission

OGDP Review

- **PWS Data:**
 - COGCC continues to work with partners at CDPHE-WQCD to develop map updates, but we continue to have old 317B data on our COGCC GIS Online Interactive Map
 - Besides our map there are other tools at your disposal:
 - ◆ Contact downstream municipalities and ask about their water supply
 - ◆ Review water well data within 2 miles looking for potential PWS
 - Then review the well records to determine if Type III or GUDI
 - ◆ Contact CDPHE
